## Learning about Car Hire Rate Negotiation Self Service

Car Hire Rate Negotiation Self Service (also referred to simply as Car Hire Rate Negotiation or abbreviated as CHRNSS) is a web application that enables authorized users to:

- Make original offers
- Make counter offers
- Confirm offers
- Call best & final offers
- Respond to best & final offers
- Cancel offers
- Confirm offer cancelations
- View open, closed, and expired offers on the dashboard
- Upload equipment for offers with CSV Upload
- Run fee-based detail and summary reports on car hire rates

---

## Overview

Car Hire Rate Negotiation is the process used by railroads to negotiate car hire rates for the use of equipment. Historically, car hire, or compensation that is paid to an owner for use of a car, was based on a formula that was prescribed by the ICC (now the Surface Transportation Board). Beginning in 1994, the STB ordered that a market-oriented approach to setting car hire rates be adopted.

Each Monday, the Association of American Railroads (AAR) publishes the weekly broadcast list, which lists cars that have entered or exited the Deprescription system, during the previous seven days. Along with the car mark and number, AAR equipment type code, and default rates, each record contains an indicator identifying which type of activity has occurred. This activity is related to either a car first entering the Umler system, or a car that has been deleted from the Umler system.

## System Requirements

For information about the system requirements of Railinc web applications and for information about downloading compatible web browsers and file viewers, refer to the [Railinc UI Dictionary](#).

---

## Accessing the Railinc Customer Success Center

The Railinc Customer Success Center provides reliable, timely, and high-level support for Railinc customers. Representatives are available to answer calls and respond to emails from 7:00 a.m. to 7:00 p.m. Eastern time, Monday through Friday, and provide on-call support via pager for all other hours to ensure support 24 hours a day, 7 days a week. Contact us toll-free by phone at 877-RAILINC (1-877-724-5462) or send an email directly to [csc@railinc.com](mailto:csc@railinc.com).

## Getting Started

Access CHRNSS by using Railinc’s Single Sign-On (SSO), a web application that provides convenient access to a variety of Railinc products. If you have an SSO login, go to the Railinc portal at <https://public.railinc.com/> and log into SSO by selecting the **Customer Login** link in the top right corner. Enter your user ID and password in the fields and select **Sign In**.

---

## Registering to Use Railinc SSO

Each CHRNSS user must register to use Railinc’s SSO. If you are not already registered for an SSO login, go to the Railinc portal at <https://public.railinc.com/> and log into SSO by selecting the **Customer Login** link in the top right corner (Exhibit 5). Select the **Create an account now** link. Once you have completed SSO registration, log into SSO to request access to CHRNSS.

---

## Requesting Access to CHRNSS

After you receive authorization to use Railinc’s SSO, you must request general access to CHRNSS by following the instructions in the [Railinc Single Sign-On User Guide](#).

Your level of access and authorization for CHRNSS is determined when you request access through Railinc’s SSO. Below is a list of CHRNSS roles. The user role you choose determines what functions you can perform.

**Exhibit 1. User Roles and Tasks**

Task	Description
<b>Car Hire Rate Neg. User</b>	This role is for the user to create and view bid and offer transactions submitted by their User ID
<b>Market Reports User</b>	This role is for running fee-based reports on car hire rates
<b>Read-Only User</b>	This role is for querying car hire rate information only and does not include negotiating rates

Upon receipt of your request in SSO as shown below, user roles are assigned by Railinc or your company administrator.

## Logging In

Use the following procedure to log into CHRNSS:

1. Open your internet browser and enter <https://public.railinc.com> to open the Railinc website.
2. Select the **Customer Login** link in the upper right of the page. The Account Access page is displayed.

### Exhibit 3. Railinc Login

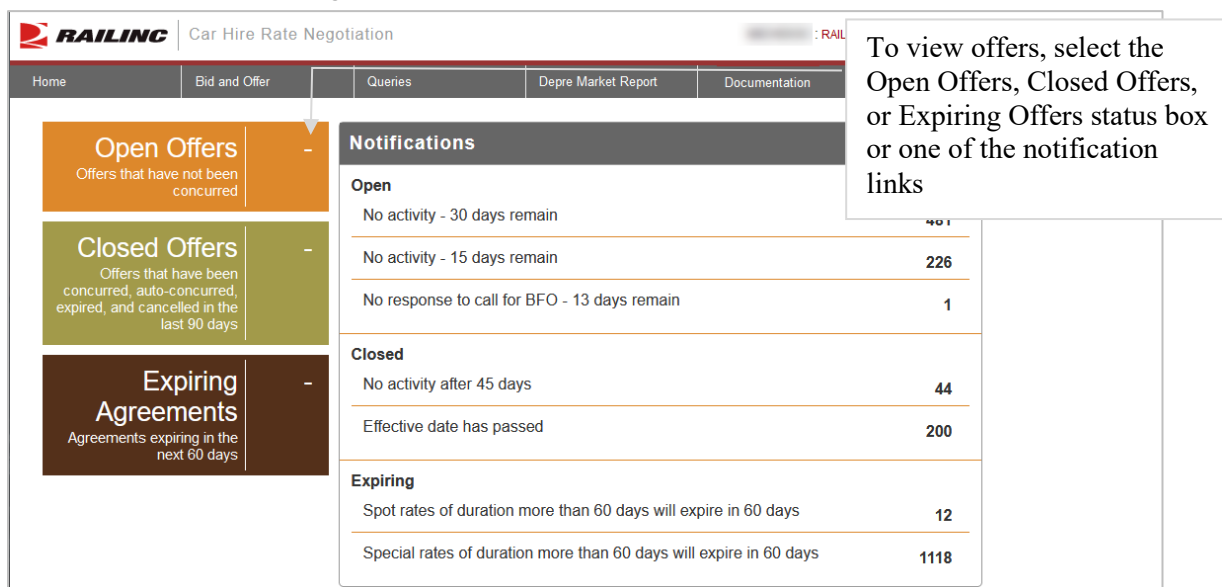

- In the Customer Login panel, enter your User ID and Password. Select **Login**. The Railinc Launch Pad is displayed.

**Exhibit 4. Railinc Launch Pad**

- Under My Applications, select **Car Hire Rate Negotiation**. The CHRNSS Home page is displayed.

**Exhibit 5. CHRNSS Home Page**

Continue by selecting an offer status box, a notification, or a CHRNSS application menu item.

**Exhibit 6. CHRNSS Application Menu Functions**

- [Bid and Offer](#) Opens the Bid and Offer menu, which allows you to create an offer.
- [Queries](#) Opens the query page allowing you to select either a Bid Offer or Car Hire Accounting Rate Master (CHARM) query.
- [Depre Market Report](#) Opens Deprescription Market Report and allows you to search market rates based on mileage or hourly rates, for specific cars, car series or AAR car types.

[Documentation](#)

Opens the documentation menu with options to download this user guide or a list of FAQs.

---

## Logging Out

Select the **Sign Out** link in the top right to end a Car Hire Rate Negotiation session.

## Viewing and Managing Offers

Direct links on the Home page allows users to view all open, closed or expiring offers (see [Exhibit 5](#)). The number that appears as part of the link reflects the number of offers available for your company.

### View Open Offers

Use the following procedure to view open offers:

1. If not already on the CHRNSS Home page, select the Home option on the menu. The home page is displayed ([Exhibit 5](#)).
2. Select the **Open Offers** box to view all open offers. The list of Open Offers is displayed. Any offers in a Best and Final status appear with a yellow/gold highlighting.

9. If you want to export the displayed equipment as a CSV file, select the **Export to CSV** button (see [Exporting Offers, Equipment Lists, or Transaction History as CSV](#)).
10. Select either the **X** in the upper right corner or the **Close** button to close the Offer Details page.

## Exporting Offers, Equipment Lists, or Transaction History as CSV

You can export displayed offers, equipment lists, or transaction history as a CSV file from any one of the offer or offer detail pages.

1. Perform the steps to view an open, closed or expiring offer (see [View Open Offers](#), [View Closed Offers](#) or [View Expiring Agreements](#)).
2. With offers, equipment lists or transaction history displayed, select the associated **Export to CSV** button to export that data.
3. A message is displayed asking if you want to open or save the file.
4. Perform one of the following actions:
  - a. Select **Save** to save the file on your local computer. A dialogue box will ask for the file location.
  - b. Select **Open** to open the file. The file opens in your local spreadsheet application ([Exhibit 17](#)). Use the options available within the spreadsheet application to sort or save the data.

Only the party making the initial offer may cancel an offer.

- You can cancel offers from Open Offers or Bid Offer Query:
  - From the Home page, select the **Open Offers** box ([Exhibit 7](#)). From the list, click inside the row of the offer you want to open to view the offer details.
  - Perform a Bid Offer Query (see [Performing a Bid and Offer](#) Query) and click inside the row of the offer you want to open to view the offer details.
- Select **Cancel** from the Bid Purpose drop-down list and select **Go**.
- The Transaction Details for Cancel page is displayed.

**Exhibit 42. Cancel Offer Transaction Details**

4. Complete the mandatory fields. Fields for Cancel Offer include:

**Exhibit 43. Cancel Offer Transaction Details Fields**

<b>*From SCAC:</b>	Road mark of road that is submitting the offer
<b>*To SCAC:</b>	Road marks of the roads to which the offer is being sent. Cancel offers cannot be made to multiple roads.
<b>*Bid Offer Number:</b>	Identification number (Railinc ID Number) assigned by Rail-Cards to a new offer between two parties. The bid & offer number is a 9-digit number, first and last digit is always the same. If the bid & offer number ends in a 0, fill in with preceding 0's.
<b>Carrier Reference:</b>	Optional field assigned by the submitter.

**Note:** As a point of reference, this page contains a **CHARM Rates** button to display the current and the default rates ([Exhibit 24](#)). Additionally, the Mark of the owner of the equipment and the system user must match for rates to display. Select **Done** to close.

**Note:** When a user selects **Cancel** in response to an existing offer, the Transaction Details (for Cancel Offer) page additionally contains a **Transaction History** button. When this button is selected a Transaction History of the offer is displayed (similar to [Exhibit 35](#)). Select **Done** to close.

5. Select **Submit** to continue.

## Confirm Cancel

Confirm Cancel is only used when there has been a counter offer. If there has been a counter offer, the user road (road that submitted the counter) must agree to the Cancel.

1. You can confirm cancel offers from Open Offers or Bid Offer Query:

- From the Home page, select the **Open Offers** box ([Exhibit 7](#)). From the list, click inside the row of the offer you want to open to view the offer details.
  - Perform a Bid Offer Query (see [Performing a Bid and Offer Query](#)) and click inside the row of the offer you want to open to view the offer details.
2. Select **Confirm Cancel** from the Bid Purpose drop-down list and select **Go**.
  3. The Transaction Details for Confirm Cancel page is displayed.

The Offer Details popup window enables you view bid offer information, latest transaction details, and details about the equipment and transaction history. Each section in this popup window has unique functionality as described below:

- In the Bid Offer section, you can view all of the information in a field (for example, the Car Type Code field) by left-clicking in the field and holding the left mouse button down as you move to the right and left to highlight and view all of the information in that field.
- In the Latest Transaction Details section, you can respond to an offer or copy an offer, depending on the offer status. If the offer status is **Open**, you can only respond to the offer. If the offer status is **Concurred**, **Cancelled**, or **Expired**, you can only copy the offer.
- In the Details section, you can select the **Equipment** or **Transaction History** tab, and then select **Export to CSV** to export the detailed data to a CSV file.

The following table describes the CHARM Rate Type Codes, which are displayed in the Equipment tab of the Details section.

<b>B</b>	BFO rate on market cars.	<b>R</b>	Arbitrated Rate (rates set through the arbitration process).
<b>D</b>	Post arbitration-period rate on market cars.	<b>S</b>	Spot market rate on market cars.

## Performing a CHARM Query

Use the following procedure to perform a Car Hire Accounting Rate Master (CHARM) query:

1. Select **Queries > CHARM**. The CHARM Query page is displayed.

### *Exhibit 50. CHARM Query Page*

The screenshot shows the 'CHARM Query' page. At the top, it says 'CHARM Query' and 'To perform a CHARM query, select a CHARM File Date and at least 1 additional filter(s) and then click Search'. Below this, there is a section for 'CHARM File Dates' with two input boxes and calendar icons. There is a link for 'Edit filters'. At the bottom, there are 'Search' and 'Clear' buttons, and a 'Recent Queries' dropdown menu.

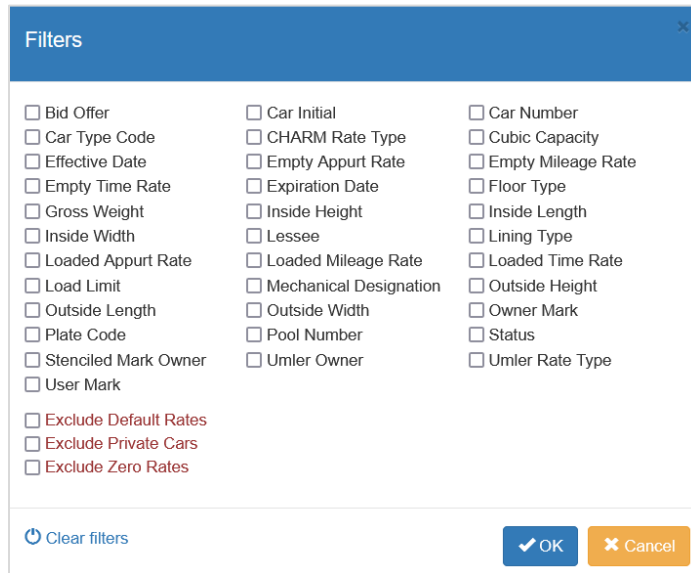

The CHARM Query page allows you to choose CHARM file dates, edit filters, and re-run your five most recent queries.

2. Use the calendar tools to select the date range containing the CHARM file(s) you want to query.

**Note:** You can access CHARM files for any 30 to 90-day period.

3. Select **Edit filters**. The Filters popup is displayed ([Exhibit 51](#)).

**Exhibit 51. Filters Popup**

Filters

The Filters popup enables you to select the filter(s) you want to use for your query.

**Note:** Select the **Exclude Default Rates** checkbox to see only negotiated rates, select **Exclude Private Cars** to see only Railroad-marked equipment, and select **Exclude Zero Rates** to exclude rates for cars that have a rate indicator of 6 or 0.

4. Select at least one filter checkbox, and then select **OK**. You are returned to the CHARM Query page, which now displays the filter(s) you selected as well as an empty search parameter field for each filter ([Exhibit 52](#)).

5. Complete the search parameter field associated with each filter (e.g., type the Owner Mark you want to query).

**Notes:**

- Certain search parameter fields contain lists of items (i.e., CHARM Rate Type, Floor Type, Lining Type, Plate Code, and Status). Use Ctrl+Left Click to select multiple values for these search parameters.
- You can also use a wildcard (\*) in certain fields (Car Initial, Car Type, Owner Mark, and User Mark) when searching.

- Search for up to 50 bid offers and up to 50 car type codes. You may also exclude up to 50 car type codes. In some browsers, you can select the bottom right to expand the field.
6. Select **Search** to initiate the query. Query results are displayed at the bottom of the CHARM Query page.

- Select **Options** to display the Column Selection Options popup, which you can use to select only the columns you want to view.
  - Select a column header to sort the search results in ascending order by that selection. Select the same column again to have the results sorted in descending order.
  - Select your desired records, and then select **Create Offer** to create a new offer based on your selection. The bid/offer creation wizard opens with the cars included from your selection (see [Bid and Offer](#) on page 18 for more information).
- Note:** Similar to the copy offer functionality, the equipment cannot be changed when creating an offer from a query result.
- Select **CSV** to export all the results to a CSV file (not just the selected columns). The search results are opened in your local spreadsheet application where they can be saved or analyzed ([Exhibit 54](#)).

## Error Messages

The following are the most common error messages, with a short description of how to interpret each. If you receive an error message that is not listed below, contact the Customer Success Center at [csc@railinc.com](mailto:csc@railinc.com) or call toll-free at 1-877-724-5462.

---

**Note:** If a road receives an error message, the entire bid and offer submission must be reentered.

---

- 3** **CIC Invalid Selection Criteria No Cars Found:** This error is similar to 161 (see below). Error 3 indicates that an offer has been made; however, no cars have been found that match the offer type. Road ABCD makes a market offer on cars ABCD 34 through 77, Equipment Type Code B234. RAIL-CARDS finds B234 cars in the series; however, all the cars are prescribed and not eligible for a market offer. An Error Message 3 is returned.
- 7** **Transaction/Bid Number Not Found in Database:** While processing a message from a road, RAIL-CARDS is unable to find the supplied Bid & Offer Number.
- 9** **More Than 10,000 Cars:** An offer has been made which contains more than 10,000 cars, which is the current limit of the system (by design).
- 11** **Car Found Which Exists in Another Offer:** Road ABCD makes an offer to Road ASDF on cars ABCD 45 through 88. Car ABCD 56 exists in an earlier offer that is still open between the two parties. The system will generate an 11 Error Message, giving the Bid & Offer Number of the earlier offer between the two parties.
- 21** **Call For Best And Final Found:** Road QWER is calling for a BFO on Bid & Offer 123456781 with Road MNBV. The system finds a call for BFO already exists for this offer between these two roads.
- 44** **Road Already Responded To Best And Final:** Road TGBN sends in a response to a call for BFO. RAIL-CARDS finds a response from Road TGBN already exists.
- 46** **Offer Closed - Bid Concurred:** An attempt has been made to concur to an offer that has already been agreed to.
- 147** **DRT Segment Required:** The system is processing a 432 EDI message that requires a DRT rate segment and is unable to find one.
- 161** **No Equipment in Requested Range:** This error is returned when RAIL-CARDS is unable to find any equipment that matches a CIC segment. For instance, Road ABCD makes an offer and the CIC segment shows cars marked ABCD between the numbers 23 and 678, with an equipment type code of C113. If the system finds no C113 cars with numbers between 23 and 678 with the mark ABCD, it will return a 161 Error Message.
